Re: Hardness Testing

Dear Gerardo,

Here is the analysis result of the water sample collected on January 18, 2018, from the Receiving Station LC1182018NT.

Tests	Result	*MCL
Hardness	84 mg/L	120 mg/L

*MCL is the maximum contaminant level as established by the Environmental Protection Agency.
mg/L = (parts per million)

Sincerely,

Walter M. Drew
